BACKGROUND

Your Voice in Health & Social Care (YVHSC) commissions a number of local Healthwatch services across London. Healthwatch is the main public and patient engagement mechanism for health and social care users in each borough.

Healthwatch includes championing the health and social care needs of adults and children, acting as an independent local voice and ensuring that services meet the needs and remain high-quality and fit-for-purpose. Healthwatch services represent the views and experiences of local people, including children and young people, and help communities to exercise greater choice over the services they receive. Healthwatch services have a visible presence in each borough, with an effective, proactive and independent local voice.

Key to YVHSC Healthwatch services is the Patient Experience Programme. In each borough there are weekly, monthly and quarterly patient experience targets to achieve. The Patient Experience Officer will directly deliver the programme in the London Borough of Bromley.
